**New Product:**

***MODE Racing High Performance Racing Radiator Hoses for Hyundai Genesis Coupe!***

MODE Racing is proud to introduce the first of many high performance products for the 2010 Hyundai Genesis Coupe. The new MODE Racing Radiator Hoses are made of durable silicone and heat resistant fibers to provide superior cooling. With many hours of research, these materials were selected to give the MODE Racing High Performance Racing Radiator Hoses the longevity for everything from everyday daily driving to demanding racing.

With aesthetics in mind, the MODE Racing radiator hoses come in two color options to help individualize your engine bay, red or black. MODE Racing radiator hoses are available for both the Hyundai Genesis 2.0T and the 3.8L V6 in a 3 piece kit. MODE Racing stands by its products and even utilizes them in both their project cars.

All of the MODE Racing High Performance Racing Radiator Hose kits were developed, engineered and tested in the USA.
